Why sponsor the St. Patrick Spring Gala?

- St. Pat's offers our children a fun and safe learning environment in a small classroom setting. This is offered to families of all faiths through out our community, not just Catholic families.
- An education at St. Pat's promotes life-long learning and advances the development of the whole person to the fullest extent.
- St. Pat's strives to foster a culture of academic excellence through critical thinking skills, innovative and rigorous curriculum standards, global perspective and an emphasis on community and service.
